EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The Title should be amended to: Liquid crystal display device with the source electrode having a projecting portion.

Claims 1-4 and 14-20 have been cancelled approved by Melvin Kraus on Feb. 28th.

The following statements indicate reason for allowability:

Claims 6-13 are allowed.

Regarding Claim 6, Nishida et al discloses a source electrode (Fig. 40 (130b)). Nishida does not disclose the source electrode having a projecting portion that superposes on the overhanging portion of the pixel electrode and is formed in a direction that faces the overhanging portion in an opposed manner.

Claims 7,8 depend on Claim 6, therefore are allowed.

Regarding Claim 9, Nishida et al does not disclose the common electrode extending in the inside of the unit pixel while covering the commons sign line except for a portion along the overhanging portion of the pixel electrode.

Regarding Claim 10,

The prior art does not disclose nor does not reasonably suggest the enlarged portion which bridges over the common signal line from the inside of the unit pixel and

Art Unit: 2871

the common electrode is formed such that it extends into the inside of the unit pixel while covering the common signal line except for portions along the enlarged portions of the pixel electrode.

Claims 11-13 are dependents of Claim 10 so are therefore allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
